## A Partnership of Landscape Professionals

This is a unique opportunity for Property Managers to meet and network with Landscape Inspectors from many municipalities throughout Florida and pick up 1 CEU credit towards their CAM License!

Established in 1983, the objective of the Landscape Inspectors Association of Florida has been to set standards for its professional members and provide education to the public involved in the industry. LIAF's mission is to train, certify and provide peer networking for landscape professionals in order to promote Best Management Practices within Florida's green industry.

### LAKE MAINTENANCE

### CONTROLLING WEEDS, ALGAE AND AQUATIC PESTS - 1 CEU

Course Number: 9625875

#### Objectives

We will discuss types of aquatic weeds and their EPA approved treatments as well as beneficial aquatic plants. Recommended water testing and how it relates to application of herbicides. How fish stocking and aeration helps to control undesirable plant growth and aquatic pests.

#### Agenda

- Licenses and certifications. Weather conditions and water testing as it relates to herbicide applications (15 Minutes)
- Herbicides, Larvicides and their proper application situations (15 Minutes)
- Beneficial vs. Undesirable Plants and their identification (10 Minutes)
- How fish stocking and aeration can benefit lake quality (15 Minutes)
