Eliminating Unnecessary Flooding on **Commercial / Industrial Properties**

Allstate Resource Management, Inc. Provider# 0004645

CAM# 9627126

2 CEU Credits Physical Property

Friday, April 4th, 2014

8:30 AM to 11:30 AM

South Broward Drainage District

6591 Southwest 160th Avenue

Southwest Ranches, FL 33331

This course will provide CAM licensed property managers of commercial and industrial properties with a better understanding of drainage and stormwater management principles and provide cost-effective solutions to reducing or eliminating unnecessary flooding.

Stormwater management includes the design, permitting, construction, operation, and maintenance of drainage and stormwater management systems for properties. This includes parking lot drainage; flood protection; water quality; and pretreatment of stormwater runoff. Commercial and industrial properties can significantly reduce flooding by gaining a better understanding of how its drainage system works and by incorporating a properly scheduled maintenance program.

Introduction: Rose Bechard-Butman, ISA Certified Arborist Community Education Specialist, Allstate Resource Management

8:50 am

Rose is an International Society of Arboriculture Certified Arborist and Florida Master Gardener. She is the Executive Chair of the Broward County Extension Overall Advisory Council and serves on the Regional Advisory Council for the University of Florida Institute of Food and Agricultural Sciences as well as numerous other local boards. She provides lectures and workshops to community groups, educators, students and organizations on horticulture, career paths, wildlife and ecology. She has appeared regularly on the NBC 6 South Florida Today Show as an expert on trees and plants providing gardening tip segments which she developed with the Producers of NBC.

Co-Presenters ; Kevin M. Hart and Wendy Shaw

9:00 am - 11:00 am

KEVIN M. HART, P.E.

District Director for the South Broward Drainage District

Kevin M. Hart has over thirty two years of local experience in the areas of water resources, environmental engineering and civil engineering. Currently, he holds the position of District Director for the South Broward Drainage District (SBDD), where he oversees the day-to-day operations of the District. SBDD is the largest independent drainage district in Broward County, covering a geographical area of over 72 square miles, and serving a population of approximately 240,000 residents. SBDD boundaries encompass portions of five (5) municipalities, and include 150 linear miles of freshwater canals and 7,500 acres of lakes for stormwater storage and conveyance.

Prior to his current position, Mr. Hart served as the Director of Engineering for Craven Thompson & Associates, Inc. (CTA), a Consulting Engineering firm in Ft. Lauderdale where he served as the District Engineer for the Central Broward Water Control District, Town Engineer for Lauderdale-by-the-Sea, and City Engineer for Aventura. Kevin has a Bachelor of Science degree in civil engineering from Virginia Tech and is a registered Professional Engineer in the State of Florida.

Wendy Shaw: Executive Director of Customer Service / Erosion Control & Stormwater Division Manager

Wendy is responsible for educating homeowner associations and property managers on a plethora of issues and concerns with their waterway systems. Wendy provides recommendations to association boards and property managers for service on their lakes, wetland and upland preserves, littoral plantings, stormwater maintenance and erosion control. She specializes in stormwater recertifications and presents at educational workshops for the water management industry.

Ms. Shaw has her Bachelor of Science degree in Business Administration from Central Michigan University, Mt. Pleasant, Michigan. She is certified and licensed through The Florida Department of Agriculture and Consumer Services.
