**RICK NOVEMBER WINS GOLF TOURNAMENT AT MELREESE COUNTRY CLUB
Following Educational Presentation on Water Management**

DAVIE, FL – Rick November, of Allstate Resource Management, Inc, took first place in the South Florida Golf Course Superintendents Association (SFGCSA) golf tournament at Melreese Country Club in Miami in April.

The day began with an SFGCSA meeting and an educational presentation on water management by the South Florida Water Management District. The golf tournament followed, with Rick November coming in with the lowest net score and winning the tournament.

“It always feels good to win” states Rick, “but what really made the day great for me was playing a friendly round of golf with a terrific group of people who are interested in learning and educating others about the importance of maintaining golf courses in harmony with South Florida’s natural environment.”

Allstate Resource Management, Inc and its employees support the South Florida Golf Course Superintendents Association. The SFGCSA promotes positive relationships between golf course superintendents, golf club officers and club members in Broward, Dade and Monroe counties. Allstate partners with the SFGCSA to help them achieve their goals of collecting, disseminating and preserving scientific knowledge about efficient, economical and environmentally healthy golf course maintenance and aquatic resource management.

###

Allstate Resource Management, Inc. headquartered in Davie, Florida, has been a leader in aquatic resource management for more than 10 years. Allstate Resource Management specializes in cultivating a healthy ecosystem for South Florida’s aquatic plants and wildlife. The company provides lake management, wetland management, stormwater service, erosion control, fish stocking and native wetland planting to communities throughout South Florida.
